KIDNEY CHANNEL

Begins: Beneath little toe Organs: KI, UB, LV, LU, HT (all yin organs except SP) Crossing Points: SP-6, DU-1, REN-3, REN-4, REN-7, REN-17

Internal Pathway: DU-1 \rightarrow Spine \rightarrow KI \rightarrow UB **Branch 1:** KI \rightarrow LV \rightarrow Diaphragm \rightarrow LU \rightarrow throat \rightarrow root of tongue **Branch 2:** LU \rightarrow HT \rightarrow Chest \rightarrow PC/REN-17

Divergent Channel: Popliteal fossa \rightarrow KI \rightarrow root of tongue \rightarrow nape of neck **Luo Channel:** KI-4 \rightarrow circles heel to UB channel

 \rightarrow follows primary channel to point below pericardium \rightarrow spreads over lumbar vertebrae **Sinew Channel:** heel, medial condyle of tibia, genitals, ascends inside spine, occipital bone
